Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

OFFICE ACTION

Claim Objections

The amendment of 6/16/08 is improper. Deletions should be indicated with brackets, not strike-throughs. New claims 20-38, 40-109 must always be underlined and presented without brackets showing deletions. See the reissue guide.

Any change in the specification (other than (a) above) must be presented as an entire paragraph (when proposed by the applicant). The precise point in the specification must be indicated where the amended paragraph is to be located. 37 CFR 1.173(b)(1). All subject matter being added to the patent must be underlined. All subject matter being deleted from the patent must be placed between brackets. 37 CFR 1.173(d). Examiner's Amendment exceptions as set out in revised 37 CFR 1.121(g) apply in reissue applications. See MPEP 1455.

Appropriate correction is required.

Reissue Applications

The reissue oath/declaration filed with this application is defective because it fails to identify at least one error which is relied upon to support the reissue application. See 37 CFR 1.175(a)(1) and MPEP § 1414.

A new oath is required. The oath or declaration must properly identify at least one 35 U.S.C. 251 error being relied upon as a basis for the reissue and that it is indeed an appropriate error for reissue (37 CFR 1.175(a)(1)). For example, "failure to include the following claims in the original patent..." is not an acceptable statement of an error. See reissue guide and MPEP 1414.

Any error in the claims must be identified by reference to the specific claim(s) and the specific claim language wherein lies the error. A statement of "... failure to include a claim directed to ..." and then presenting a newly added claim, would not be considered a sufficient "error" statement since applicant has not pointed out what the other claims lacked that the newly added claim has, or vice versa. Such a statement would be no better than saying in the reissue oath or declaration that "this application is being filed to correct errors in the patent which may be noted from the change made by adding new claim." In both cases, the error has not been identified.

Therefore, claims 1, 4-12, 15-38, 40-109 are rejected.

Response to Arguments

Applicant's arguments filed on 6/16/08 have been fully considered but they are not persuasive because MPEP 1402 states "a reissue application is filed to correct an error in the patent which was made without any deceptive intention, where, as a result of the error, the patent is deemed wholly or partly inoperative or invalid. An error in the patent arises out of an error in conduct which was made in the preparation and/or prosecution of the application which became the patent.

There must be at least one error in the patent to provide grounds for reissue of the patent.

If there is no error in the patent, the patent will not be reissued.

The failure of the examiner to consider two references does not make the patent inoperative or invalid. Applicant must state an error in the patent.
